

How to write section numbers

- 1 To quote section numbers is not compulsory but you should try to remember all important sections and always mention the relevant section number
- 2 To make it a habit from the day one to remember it. You can prepare a list or chart of important sections. (Or you may refer to a list of important section numbers I have made available on the website)
- 3 In the examination, quote section numbers only when you are sure. If you are unable to remember sub-sections or clauses, you can write only the main section number

EXAMPLE: Section Clause
As per Section 26 (1) (c) of the Companies Act, 2013
Sub-Section
